Projects

Perimeter Insight Solution   Jun-2022 - Present

Renowned Construction Company

Project involves the estimation of the perimeter insight on iOS platform. It was developed in SwiftUI having different features like free hand drawing on map for the perimeter, estimation based on different product, supporting different configurations & many more. It provides the high level estimates for the overall perimeter.

Digital Briefing Solution   Jun-2021 - May-2022

Renowned Europian Airline

Project involves creation of a paperless flight planning mobile application on iOS platform. Features covers pre-flight, in-flight and post-flight operation like viewing of the briefing package in offline mode, accepting the flight, capturing the fuel weights, capturing Fuel & time data on waypoints, placing of fuel order. It provided data of all the operations performed by the pilots on a briefing package for storing at the backend for audit purposes.

Skills

- **Swift**
- **UIKit**
- **SwiftUI**
- **Agile (Scrum)**
- **XCTestCases**
- **XCUITestCases**
- **HTML5**
- **CSS3**
- **C / C++**

Tools & Platforms

- **Xcode**
- **JIRA**
- **SharePoint**
- **SourceTree**
- **Postman**
- **Robo 3T**
- **Push Notifications**

Most Proud Of

- **Created a portfolio & hosted it on My Website .**

- **Won 3rd Prize in Band performance at IIT ISM Dhanbad**

- **Performed & Organised many Cultural Events**

My Time

- **Part of NSS AEC for volunteering 2 BDC's & leaded the team of special camp for betterment of slum children.**

- **Part of Basketball Team, AEC**

- **Represented the college in many Cultural Fest**
